Protest Their Innocence.

If the oid adage that "the wicked flee when as o man pursueth" is true, the Republicans of Sait Lake, or at least those around headquarters, were vicited yesterday. Long before anybody could accure them of attempting fraud they were protesting that they didn't intend to do anything wrong. They freely admitted that they are counting strongty on the spering and critisms strongty on the spering and critisms strongty on the spering and critisms at the Pitty-first and Frity-second districts but they couldn't see any harm in that.

Nether could they see anything trong in the illegal registrations that have been made at the instance of Republican workers. All hands were willing to charge the Democrats with fraint notwithstanting the fact that

Jury to charge the Democrate with fraud, notwithstanding the fact that finit party, through Chairman Whitaken, has offered a liberal reward for it; arrest and conviction of all persons who violate the law today. The money will be cheerfully paid to any Republican who will furnish enough evidence to convict a Democrat.

Will Waste No Time.

Soft the Larmanites know there will be the such cases, and they are not going to waste any time in looking for them. On the contrary, they will bend all their efforts in the direction of protecting their own floaters and repeaters. Men will be at the polls, however, who know the criminal element, and should attempts be made by them to vate they will be immediately arrested and prosecuted.

It was claimed by the Republicans yesterday, that the offer of reward was made in order to scare Returblican toters sway from the polls. It is not believed that even the Republican committee thinks that any kind of proposition can scare houset voters was; from the polls. It had dishonest crowd is scared away it will be so much the better for that crowd, for it is better to be scared away allow ther than to spend a term of years in the penitentiary.

Thought He Could Make the Demo crats Weaken.

One of the most amusing incidents of a campaign that has not been altogether of humorous features, occurred last aight. Tom Kearns, who is known as one of Thompson's most ardent supporters, concluded he would make all the Democrats in Sait Lake take water. Nabody knows where Mr. Kearns imbibed this theory, but certain it is that it took possession of him. Inst before his banking house closed he draw a check for file 305 and cashed it. Then he laid low until after dark, when he went to Hugle's and from there bent out word that he would take every but offered by the supporters of Barnes. Samehow the news flew rapidity, and at first there was great jubilation among the Republicans. One of the most amusing incidents

Excused.

Later offers were freely made of \$1.00 to \$700, but no Thompson money could be found anywhere. The odds against the election of Thompson finally advanced to \$50 to \$22, or practically 2 to but even that figure failed to tempt the friends of Thompson to the putting up point.

The news from Washington that the supreme court of the United States had refused to consider Mr. Baron's case was received with much disappoint ment by his friends in the city yesterday. Mr. Bacon is in Chicago on business and is not expected back until the middle or last of the week. The bond of \$20,000 under which he is at liberty continues in force until he is turned over to the custody of the United States marshal.

Jeremiah Schenck, one of Mr. Bacon's bondsmen and one of his most intimate friends, was much surprised to hear of the decision and also much disappointed, as he had hoped for a favorable decision. He stated that Mr. Bacon was in Chicago on business and that he was expected home about Wednesday of this week.

Indicted In 1896.

Mr. Bacon was indicted in 1896 on a charge of making faise reports to the comptroller of the treasury on the condition of the Bank of Salt Lake. Previous to his indictment the bank failed and many people had lost large amounts by the failure. The difference between the amount reported to the comptroller and the actual assets in the bank was about \$8,000, and this amount was differently set forth in the report to as to seem to show a greater amount of available cash than the bank really possessed.
